

To whom it may concern:

I am a listener and supporter of K-LOVE on 105.5 and 89.1 FM.

It has come to my attention that K-LOVE's signal is in danger due to new rule changes being proposed. This would be a huge disservice to our community. K-LOVE's positive programming is family friendly and that is rare in today's world. The commercial free format along with the teaching spots and great music is something my whole family can enjoy. Not to mention how it encourages anyone else who listens to it.

K-LOVE is truly unique and we would be worse off without it.

Thank-you for listening,

Sincerely, Brian Beddow
